2020 GEORGIA **VOTER POLL**

Now more than ever, Georgia voters recognize the importance of early care & learning and policies that support working families. In a divided political environment, support for early learning is consistently strong and overwhelmingly bipartisan. Voters support family-friendly policies, whether or not they have young children.

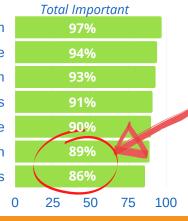

PRESSING ISSUES FACING GEORGIANS

Early Childhood Education (ECE) and paid leave are important issues to Georgians.

Expanding access to early childhood education and paid family and medical leave are priorities for Georgia voters-observed at levels similar to other top issues. Roughly 9 in 10 voters identified these issues as important.

Please tell me how important each issue is to you personally – is it very important, somewhat important, not that important or not at all important?

Increasing jobs and economic growth Making healthcare more affordable and accessible Improving Georgia's K thru 12 public education system Reducing the tax burden on families and individuals Making college more affordable Expanding access to early childhood education Expanding paid family and medical leave for workers

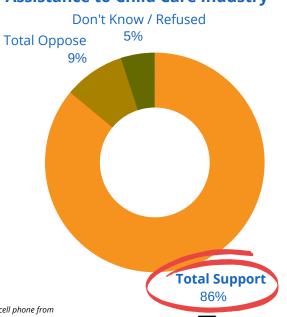

FEDERAL ACTION ON CHILD CARE

Georgians Say Congress Should Prioritize Quality, Affordable Child Care in Wake of COVID-19 Pandemic

From the following list, please tell me if each should be a high priority, somewhat of a priority, not much of a priority or not at all a priority for Congress to address as a result of the coronavirus pandemic:

Georgians Support Targeted Financial Assistance to Child Care Industry

*Respondents were from across Georgia, and included a broad cross-section of likely voters. Interviews were conducted over landline and cell phone from Sept. 14-17, 2020. Selection was random and interviews were stratified by county, race/ethnicity, age and gender to correlate with current voter registration McLaughlin & Associates

Pr FREDERICKPolls statistics and actual voter turnout from previous even-year November general elections. The poll had an accuracy of +/- 4.0% at 95% confidence interval.
