Count me in!

Filling out the census on your own—online, by phone, or by mail—is the best way to get counted.

2020CENSUS.GOV
THE CENSUS IS MORE IMPORTANT THAN EVER!

Many of the resources Georgians are relying on in the wake of COVID-19 are informed by census data, including:

**HEALTH CARE**
Medicaid, PeachCare for Kids, and hospital funding

**FOOD ASSISTANCE**
SNAP and WIC

**CHILD CARE**
Georgia’s Childcare and Parent Services (CAPS) Program and Head Start

**WORKFORCE ASSISTANCE**
Unemployment Insurance

**DISABILITY SERVICES**

REMINDER: Filling out the census on your own prevents census takers from coming to your home to help you respond!

**DID YOU KNOW?**
Young children are increasingly undercounted in the census at rates higher than any other age group. Make sure to count all young children who were living in your home on April 1st.
