SHARE YOUR CHILD CARE STORY

The existing structure of our child care system is unsustainable. Most parents can't afford the high cost of child care. And providers can only charge what families in their area can afford, which often translates into near-poverty wages for early educators.

The end of federal pandemic relief funding of more than \$2 billion, which has been a historic and critical lifeline for Georgia child care providers and families, is likely to create additional barriers to access.

MAKE A DIFFERENCE

Your stories—whether as a child care provider, teacher, or parent/caregiver—are critical to increasing investment in our child care system. The Georgia Infant-Toddler Coalition is asking Georgians to share their experiences with child care—both positive and negative—via audio or video using our easy-to-use platform. We'll share your experiences with changemakers and stakeholders to strengthen our advocacy efforts as we work to improve outcomes for families with young children and the people who care for them across Georgia.

Those who share their story will receive a **\$10 Amazon gift card***
